

“During our project completion review, we characterized a successful project as one that comes in on time, on budget and where the owners get what they asked for. Irvine Team was the primary contributor to a project that came in on time, under budget and where we did receive everything we requested plus a substantial amount more.”

SETTING THE STANDARD IN SUBURBAN HEALTHCARE

CHRISTUS St. Catherine Hospital,

www.christusstcatherine.org, delivers high-quality, compassionate healthcare in one of Houston’s fastest-growing suburbs. The full-service acute care hospital utilizes the most advanced technologies and provides an extensive range of patient services in a caring environment. CHRISTUS St. Catherine Hospital continues the century-old tradition established by one of the nation’s top Catholic health systems for restoring physical, emotional, mental and spiritual wellness.

Irvine Team led the project team that expanded the existing facility by four stories and gave the hospital greater visibility in the Katy community. The project – 133,420 square feet of new construction and 42,000 of renovated space – included creating CVOR capabilities, new emergency care and delivery rooms, an obstetrics wing renovation, adding 92 beds and providing for two floors of future expansion space.

Project Facts

- \$50 - \$100 million project budget
- 175,420 square feet
